

STAY AND PLAY IN A SAFE WAY

The current global health crisis has impacted every individual and business.

We developed our guest safety plan using the Government of Alberta and Alberta Hotel Lodging Association guidelines to ensure our guests and team members are properly protected. We want to ensure that while you stay and play in Jasper, you do so in a safe way.

KEEPING YOU SAFE

YOUR ROOM:

- Your rooms are now safer than ever with increased attention to sanitizing high touch areas like sinks, toilets, handrails, countertops, doorknobs and remote controls.

OUR MEDICAL GRADE UVC LIGHT TECHNOLOGY:

- Public and high traffic areas will be additionally sanitized using our unique, medical grade, portable UVC light technology that kills 99.99% of viruses.

OUR PHYSICAL SPACING:

- We are showing our love for our guests and team members by following proper distancing guidelines and reducing or avoiding direct physical contact.

OUR TEAM:

- To ensure our team is healthy, we conduct a daily health screening for all team members that includes a temperature check and health confirmation; and provide each team member with proper Personal Protective Equipment (PPE) and training on hygiene best practices.

Enjoy Your Safe Stay!
